## IMPACT OPPORTUNITY

Africa is home to more than 15% of the global population, a percentage which is expected to grow to close to 40% by the end of the century. Its lower income consumers (486 million people) currently lack access to basic goods and services or pay high prices for products of inferior quality or erratic availability. Investing in businesses active in sectors where un(der)served people spend most their income improves quality of life and contributes to sustainable economic development.

## SECTOR DIVERSIFICATION

- 57% Financial inclusion
- 26% Other impact sectors
- 17% Agriculture

### FINANCIAL INCLUSION

### OTHER IMPACT SECTORS

### AGRICULTURE

## SUSTAINABLE DEVELOPMENT GOALS

Our 23 African investments directly support 12 of the 17 UN Sustainable Development Goals.
